Education

Riphah International University   *Lahore*

BS in **Computer Science**, November 2021 – Present   *NOV 2021 - 2025*
Completed 6 semesters, gaining comprehensive knowledge and practical skills.

Skills

- **Languages:** Flutter (App dev), Python, java (Basic), Web front-end, oracle / SQL, C++
- **Tools:** Git & GitHub, MySQL / oracle, vs code / notebook / google colabs, android studio / IntelliJ IDE
- **Concepts:** Data structure & Algorithms, documentation, project managements, databases, networking, programming
- **Soft Skills:** communication, management (event / project), problem solving, critical thinking

Projects

Pettify APP   *android studio, Flutter, firebase database*

Pettify is a comprehensive Flutter app for pet care services, integrating shopping, pet info, and seamless user experience with Firebase backend.   *https://github.com/WaqasZafar9/Pet-Care-App.git*

Smart-E-License-System   *java, IntelliJ, MySQL database*

Smart License System revolutionizes the driving license process with modern technologies for enhanced efficiency and user-friendliness.   *https://github.com/WaqasZafar9/Smart-E-License-System.git*

Galaxy Cricket Website (web development)   *vs code, php, html & CSS, JavaScript*
https://github.com/WaqasZafar9/Galaxy-Cricket-Website.git

This project provides cricket enthusiasts with the latest news, match updates, and interactive features, built using HTML, CSS, PHP, and JavaScript for a dynamic and user-friendly experience.

UAMS (University Admission Management OOP)   *c++, visual studio*

The University Admission Management System is a C++ software solution that streamlines and automates the university admission process for students.   *https://shorturl.at/F23va*

Cricket Database System   *oracle 21 c*

This cricket database system uses Oracle 21c to manage and organize tournament information, including team details, match fixtures, and player statistics.   *https://github.com/WaqasZafar9/Cricket-Managment-DataBase.git*

Activities & Experience

1. **(Special Interest Groups) SIG Core Team member**   *Lahore*

Riphah International University, Lahore   *2024 - Present*
- management
- design bootcamps strategy
- conduct bootcamps

2. **Software Engineering Fellow Internship**   *Remote*

HeadStarter AI   *July, 2024 - sep, 2024*
- Build 5 Ai based Projects
- 2 Unique Projects
- use advance technologies

3. **Ambassador**   *Lahore*

SOFTECH'24   *2023 - Present*

4. **Digicon Valley**
Lahore
2024 - 2024

PYTHON 7 days Internship
Bootcamp

5. **Riphah**

RIU Logic BUILDING COMPETITION

2023 - -

6. **Punjab University (PUCIT)**
Lahore

PUCON

2023 - -

7. **CodemoTeams**
Lahore

PR & Marketing
2024 - Present
• PR & marketing
• ambassadorship

Certificates

2023	**Connect and Protect: Networks and Network Security**, https://coursera.org/verify/75ART8S52AGQ	*Google*
IBM	**Introduction to Artificial Intelligence (AI)**, https://coursera.org/verify/BCZJ499ME9BG	*Coursera*
2024	**Generative AI**, https://shorturl.at/ZqryQ	*Google*
2024	**Python 7 days Internship Boot Camp**, https://shorturl.at/Vq3ct	*Digicon Valley*
2023	**Building a Dynamic Web App Using PHP & MySQL**, https://coursera.org/verify/R73CQWNR6WZ2	*Coursera*
2024	**Networking Essentials**, https://shorturl.at/eyfKi	*Cisco Networking Academy*
2023	**NDG Linux Essentials**, https://shorturl.at/IC4f9	*Cisco Networking Academy*
2023	**Oracle Database Foundations**, https://coursera.org/verify/KQG4G7F954N3	*Coursera*
2022	**Ordered Data Structures**, https://coursera.org/verify/H9DEPPFDZT3B	*Coursera*
2024	**Site Reliability Engineering: Measuring and Managing Reliability**, https://coursera.org/verify/YL8SDS856JQN	*Google*
2024	**Developing a Google SRE Culture**, https://coursera.org/verify/FKGAWZ7KX3ZL	*Google*
2023	**Intro to Java**,	*Coursera*
